what it always has been: to win. As a result, it is an art, not a science, and that's what makes it so fun. In *Warfare*, you experience a century of human history, from the dawn of the Iron Age to the dawn of the modern world. You'll see the rise and fall of empires, the rise and fall of nations, and the rise and fall of the world's great powers. You'll see the rise and fall of the world's great powers, and you'll see the rise and fall of the world's great powers. You'll see the rise and fall of the world's great powers, and you'll see the rise and fall of the world's great powers.
